BEFORE TAKING YOUR SAMPLE

ORDER NO.	DAY	CUSTOMER STAGE CD	REC	LAB STAGE	PROG	RES SWAB	RESULT
0000	Day 1 PCR	☐	☐	☐			
	Save	Enter Spec Mail Tracking Number	Specify Mail				

Login into your account on www.medicinesonline.org.uk and activate your sample by clicking on **SAMPLE ACTIVATION AND RESULT**, then select your test day, enter your **pre-paid tracking number** and the **tube number** (see under barcode) then click on **SAVE**.

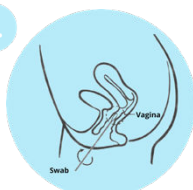

TAKING YOUR SAMPLE

1.

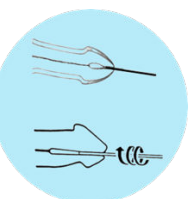

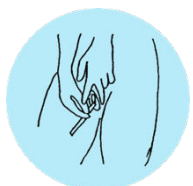

Wash your hands and remove the swab from the package without touching the end of the swab.

2.

Female: Insert the swab 3-5cm into your vagina and turn gently for 20 seconds. Remove carefully without snapping the swab. **DO NOT URINATE AT LEAST 1 HOUR BEFORE TAKING THE SAMPLE.**

Male: Insert the swab 2-3cm into your urethra and turn gently for 20 seconds. Remove carefully without snapping the swab. **DO NOT URINATE AT LEAST 1 HOUR BEFORE TAKING THE SAMPLE.**

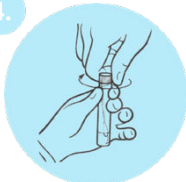

INSTRUCTIONS FOR STD SWAB SAMPLE COLLECTION

3.

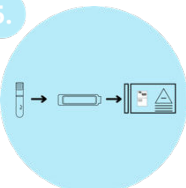

Without putting down the swab, unscrew the cap from the sample tube, carefully insert the end of the swab into the tube and break it inside the sample tube.

4.

Once the part of the swab is broken inside the sample tube, please firmly screw the cap.

5.

Place the sample tube into the plastic case, seal tightly and put it inside the return bag provided.

6.

Make a note of the return tracking number under the barcode on the postal tracking label, as shown above. Keep this in a safe place for future reference. Post your sample in a Royal Mail Priority Post box on the same day it was taken.

7.

Before you post your sample, double-check that you have:

- Activated your sample.
- Pushed the collection tube lid until it clicks.
- Kept a record of the tracking number.

Intended Use

Liquid VCM™ recovers viruses like Chlamydia, Mycoplasma, Gonorrhoea, Ureaplasma and HPV. Small vial with 1.0ml medium.

Compatible with molecular and cell culture techniques.

This product contains no hazardous constituents, or the concentration of all chemical constituents are below the regulatory threshold limits described by European directive 1272/2008/EC and the Occupational Safety Health Administration Hazard Communication Standard 29 CFR 1910/1200 and the Canadian Workplace Hazardous Materials Information System (WHMIS).

Safety Precautions

Only use the equipment provided to take your sample.
